Portfolio: <https://blomjonathon.github.io/jonportfolio/>

As a junior web developer with 1 solid year of coding experience, my skills have been honed through creating several small projects. Fueled by a passion for learning and a drive to excel, eager to leverage knowledge and expertise to contribute effectively to dynamic website development projects. Biggest strengths lie in experience at troubleshooting, quickly identifying and resolving issues, and a willingness to learn anything new. Not intimidated by new technology or systems, thrive in collaborative environments, actively engaging with team members to troubleshoot challenges and accomplish goals. With a commitment to continuous growth and a proactive approach to problem-solving, ready to hit the ground running and make meaningful contributions.

## TECHNICAL SKILLS

JavaScript ES6+, CSS3, HTML5, SQL, NoSQL, GitHub, MongoDB, MySQL, Express, React, Node, Handlebars, jQuery, Bootstrap, and some Typescript knowledge, Agile

## PROJECTS

**Javascript Calculator | Written link to deployed project** • Summary: calculator made to perform all basic math operations • Role: Sole author  
• Tools: HTML, CSS, JavaScript

**WeatherApp** • Summary: Weather app that provides cities' current and future weather forecasts. • Role: Sole author  
• Tools: HTML, CSS, JavaScript, jQuery, API, Bootstrap

## EXPERIENCE

I have done nothing but coding for the past 3 months almost every day. I learned new technologies weekly and applied them to my projects and some group projects. I have been troubleshooting and problem-solving for years. I used to run live audio for a living and was constantly figuring out technology issues.

## EDUCATION

**Certificate, Full Stack Web Development** – University of Minnesota
